RESEARCH FUNDING – ACTIVE AND PAST

Parentheses indicate research award duration; Year column indicates dates of my active role (changed institutions in 2025)

Consolidated Framework for Implementation Research (CFIR) Learning Hub Role: Co-Investigator (2025); Collaborator (2025 – present) Funder: U.S. VA Quality Enhancement Research Initiative (QUERI), VA QIS 23-187 \$150,000 (2025-2028) PIs: M. Chinman; S. Rogal <i>This training program aims to develop the CFIR Academy, a learning and mentorship program for implementation scientists and other researchers seeking education and support for using the CFIR implementation framework. My role is as an educator and mentor to participants. I resigned as Co-I and continue collaborating.</i>	2025 - present
Improving suicide prevention and reducing Veteran suicide through development of a Suicide Prevention Learning Community and enterprise-level suicide prevention data resource	2025 - present

Role: Co-Investigator (2025); Consultant (2025 – present)

Funder: U.S. VA Quality Enhancement Research Initiative (QUERI), I50HX004030-01

\$900,000 (2025-2028) PIs: S. Dobscha, B. Marx

This partnership development project aims to develop a learning health system for suicide prevention research and action by convening a learning community and developing an enterprise-wide suicide data resource for use in research and quality improvement. My role was to lead the Implementation Core; I supported writing and submission, the grant was funded; I resigned as Co-I and continue consulting.

Emulated hybrid comparative effectiveness-implementation trial of intravenous ketamine vs. intranasal esketamine for treatment-resistant depression

2025

Role: Co-Investigator

Funder: U.S. Veterans Affairs (VA) Office of Research Development, 1I01HX004085-01

\$1,199,725 (2025-2029) PI: P. Pfeiffer

This hybrid emulated trial aims to use existing data of ketamine patients to assess the safety and effectiveness for depression treatment, and glean retrospective insights into effective implementation pathways. My role was to lead implementation and qualitative methodologies; I supported writing and submission, the grant was funded, but I departed my role before the project began.

Suicide Prevention Research Impact NeTwork (SPRINT) Core

2024 – 2025

Role: Co-Investigator

Funder: U.S. VA Office of Research and Development, VA COR 24-229

\$2,777,213 (2024-2029) PIs: S. Dobscha, B. Marx, M. Ilgen, R. Owen, M. Goodman, N. Kimbrel

A. Interian

This network aims to centralize and coordinate suicide research efforts throughout the Department of Veterans Affairs. My role was to lead the implementation support effort for suicide researchers to conduct applied and hybrid research.

Maintaining Implementation through Dynamic Adaptations (MIDAS) QUERI

2023 – 2025

Role: Primary Investigator (Multiple)

Funder: U.S. VA Quality Enhancement Research Initiative (QUERI), VA QUE 20-025 (12975821)

\$5,089,825 (2020-2026)** PIs: J. Sussman; P. Pfeiffer; J. Kurlander; A. Domlyn

This hybrid 3 cRCT aims to compare the effect of two implementation strategies for improving appropriate prescribing through four projects: reducing inappropriate polypharmacy among older adults, increasing appropriate prescribing of direct oral anticoagulants, improving rate of referral to psychotherapy as a first-line treatment for insomnia over medication, and increasing referrals to a suicide prevention program. My role was to lead the implementation strategies, process analysis, and qualitative methodologies.

Virtual Quality Improvement Training for VHA Teams: The Learn. Engage. Act. Process (LEAP) Program

2023 – 2025

Role: Primary Investigator (Multiple)

Funder: U.S. VA Quality Enhancement Research Initiative (QUERI), VA QIS 19-458 (HX003140-01)

\$293,544 (2019-2028) PIs: J. Sussman; A. Domlyn

This learning program aims to train front-line providers in quality improvement methods derived from the Institute for Healthcare Improvement and provide coaching over a 12-month training program. My role was to provide oversight and methodological consistency.

- Supportive and Inclusive Teams for Equity (SITE)** 2022 – 2023
 Role: Primary Investigator
 Funder: U.S. Veterans Affairs (VA) Office of Health Equity
 \$23,273 (2022-2023) PI: A. Domlyn
This participatory implementation project aimed to identify reasons for stagnation in DEI efforts among mental health professionals at one VA, then use intervention mapping and rapid qualitative analysis to develop a multi-level antiracism intervention and implementation plan. I led the project by convening the implementation team, developing methods, collecting and analyzing data, and overseeing all aspects of the project.
- Comparing Two School Behavioral Health Programs to Improve Students' Academic Performance and Mental Health** 2020 – 2021
 Role: Qualitative Methods Consultant
 Funder: Patient Centered Outcomes Research Institute (PCORI)
 \$247,168 (2017-2022) PI: M. Weist
This RCT aimed to implement two school behavioral health programs across 22 middle schools in Maryland and South Carolina, then compare the effects on youth academic and mental health outcomes. My role was qualitative methodological consultation for leading a rapid qualitative analysis on the effects of COVID-19 on mental health and school engagement in the study population.
- Connect through P.L.A.Y: A staff-based physical activity intervention for middle school youth** 2019 – 2020
 Role: Process Evaluator
 Funder: U.S. National Institute of Nursing Research (NIRN), R01-NR017619
 \$2,541,368 (2018-2022) PI: N. Zarrett
This RCT aimed to improve staff capacity to implement a physical activity program within 30 middle school aftercare programs. My role was to design process evaluation measures, train data collection staff, and provide quality assurance.
- Partnership in Implementation Science for Geriatric Mental Health (PRISM)** 2018 – 2020
 Role: Getting to Outcomes (GTO) Implementation Consultant
 Funder: U.S. National Institute of Mental Health (NIMH), U19-MH113201
 \$3,242,556 (2017-2021) PIs: H. Chen, S. Levkoff, K. Chuengsatiansup
This program included several projects aiming to support implementation capacity in Thailand for improving physical activity among community-dwelling patients with dementia. This included an RCT using Getting to Outcomes, an implementation process framework. My role was to develop support for the project, including meeting with – and securing the permission from – ministers at the Thai Ministry of Health, hospital administrators and bureaucrats, community health workers, and patient caregivers across three provinces. I also served as an implementation educator to staff at the Thai Society and Health Institute and helped culturally adapt GTO.
- Triangulating What and When: Refining a readiness model of implementation** 2018 – 2019
 Role: Primary Investigator (Multiple)
 Funder: SPARC Graduate Research Grant, University of South Carolina
 \$4944 (2018-2019) PIs: A. Domlyn, A. Wandersman
This Delphi study aimed to develop consensus about the relative importance of determinants within an implementation readiness framework for integrating behavioral health and primary care. The study assessed readiness in two domains: across implementation stages and the degree to which these determinants could be improved by implementation support. I conceptualized and designed the study and executed all portions of it as part of my dissertation.

- Cognitive Therapy for Suicidal Older Men** 2014 – 2016
 Role: Project Manager
 Funder: U.S. National Institute of Mental Health, R01-MH086572
 \$1,752,248 (2011-2016) PI: G. Brown
This RCT aimed to assess whether Cognitive Therapy for Suicide Prevention is effective at reducing suicide ideation and behaviors among adult men over 50 years of age. My role as Project Manager and clinical assessor included coordinating recruitment and conducting data collection at one general hospital and one VA hospital.
- Attentional Fixation as a Moderator of the Relation between Suicidal Ideation and Suicide Attempts** 2015 – 2016
 Role: Project Manager
 Funder: American Foundation for Suicide Prevention (AFSP), YIG-0-001-13
 \$80,000 (2015-2017) PI: A. Adler
This exploratory study aimed to assess whether attentional fixation is a prominent feature among people with recent suicide ideation and attempts. My role as Project Manager and clinical assessor included coordinating recruitment and conducting data collection at three inpatient psychiatric units.
- Emotion Dysregulation as a Potential Mechanism of the Relation between Anxiety and Suicide Attempts** 2014 – 2015
 Role: Project Manager
 Funder: American Foundation for Suicide Prevention (AFSP), YIG-0-001-09
 \$85,000 (2013-2015) PI: S. Jager-Hyman
This exploratory study aimed to assess whether emotion dysregulation is a prominent feature among people with recent suicide ideation and attempts. My role as Project Manager and clinical assessor included coordinating recruitment and conducting data collection at inpatient psychiatric units at three hospitals.
- Preventing AIDS Through Health (PATH) for Triples** 2014
 Role: Project Manager
 Funder: U.S. National Institute on Drug Abuse (NIDA), R01-DA036503
 \$2,297,156 (2013-2017) PI: M. Blank
This RCT aimed to assess whether a community-based cascade adaptive treatment approach is effective for preventing the progression from HIV to AIDS among people living with HIV and serious mental illness. My role as Project Manager included coordinating recruitment and treatment at two inpatient psychiatric units.
- Promoting Tolerant School Settings: A Social Networks Field Experimental Intervention** 2012 - 2013
 Role: Program Manager
 Funder: W.T. Grant Foundation
 \$350,000 (2011-2016) PI: E. Levy Paluck
This RCT aimed to assess whether leaders in peer networks are effective at changing harassment norms and behaviors using principles of social psychology among 24,191 students in 56 middle schools across New Jersey. My role as Program Manager was to co-develop the program, implement it at 7 sites, collect data, and train school staff.
- Behavioral Ecology and Malaria among Indigenous Groups in the Amazon Basin** 2012
 Role: Field Research Scientist
 Funder: private donation, PI: A. Feged

This ethnographic research aimed to understand the behaviors and environmental factors affecting malaria incidence among two traditionally nomadic indigenous groups relocated to the Guaviare Department of Colombia: The Jiv and the Nukak Maku. My role was functionally that of ethnographer. I developed observational and interview data collection instruments, collected data, and conducted field visits.

CONTRACT FUNDING FOR IMPLEMENTATION, QUALITY IMPROVEMENT, AND EVALUATION

Year column indicates dates of my active role, not total project duration

The Meitheal Day: A Multidisciplinary and PPI Co-design Workshop for Integrating Lifestyle Prescribing Resources into the Oncology Care Pathway 2026 - present

Role: Collaborator

Funder: Irish Cancer Society, €2500 (PI: L. Costello)

This award submission aims to bring a multidisciplinary oncology team with expertise in sustainable healthcare and survivorship, and PPI contributors together for one dedicated half day workshop to co-design resources integrating lifestyle medicine into the cancer care pathway.

Greening the Dunmanway Day Unit (DDU) 2026 - present

Role: Collaborator

Funder: HSE SPARK Impact, €90,000 (PI: S. O'Reilly)

This quality improvement project aims to promote sustainability in chemotherapy day units through reducing plastic waste, altering prescribing patterns, and increasing patient education regarding lifestyle habits. My role is methodological consultant.

Needs assessment to establish support systems for rural veterans at high risk for suicide 2025 - present

Role: Qualitative Methodologist (2025); Consultant (2025 – present)

Funder: U.S. VA Office of Rural Health (PI: Jessica Dodge)

This multi-phase study aims to develop a suicide prevention intervention for rural Veterans that leverages the influence of both peer specialists and patient supporters such as family and friends. The study conducts a needs assessment to ascertain feasibility and content of an intervention, then a Delphi study using expert panelists and operational leaders to develop and pilot an intervention based on the COM-B framework. My role was to lead qualitative methodologies; I supported writing the application and it was funded, but I departed prior to the project beginning. I continue to consult ad hoc.

Suicide Prevention Actively Management Portfolio, Department of Veterans Affairs 2025

Role: Implementation Consultant

Precision Medicine for Suicide Prevention

Funder: U.S. VA Center for Clinical Management Research & Office of Research and Development (PI: M. Ilgen)

This needs assessment project aimed to identify the infrastructure and clinical trial needs for establishing a precision medicine approach to preventing Veteran suicide. I co-led the project by developing the planning framework and leading qualitative methodologies.

National Alliance on Mental Illness (NAMI) of South Carolina | Columbia, SC 2019 - 2021

Role: Lead Evaluator (2019 - 2020); Evaluation Consultant (2020 - 2021)

Ending the Silence program

Funder: Blue Cross Blue Shield (PI: M. Weist)

This evaluation project aimed to assess the effect of a suicide prevention program delivered to 11,607 in 65 schools across South Carolina. I led the project by developing relationships with the partners and funders, creating the mixed methods evaluation structure, collecting and analyzing data, and authoring the evaluation reports.

Centers for Disease Control and Prevention, Office on Smoking and Health | Atlanta, GA 2017 - 2019

Role: Implementation Lead (2018 - 2019); Organizational Readiness Consultant (2017 - 2018)

Readiness-focused Technical Assistance

Funder: Robert Wood Johnson Foundation (PIs: J. Scaccia; A. Wandersman)

This tiered capacity building project aimed to pilot the readiness building process (of which I am co-developer) with technical assistance providers working at the CDC, who in turn employed the process with 10 state and territories' public health departments to implement tobacco prevention policies. I led the project by developing the partnership and implementation team, conducting trainings, creating the readiness building process and instruments, and collecting and analyzing data.

Serve & Connect | Columbia, SC

2017 - 2019

Role: Evaluation Consultant

North Columbia Youth Empowerment Initiative

Funder: U.S. Department of Justice (PI: K. Alia Ray)

This partnership development project aimed to convene a coalition of youth, community leaders, and police officers to build trust and collaboration in an overpoliced, predominantly Black neighborhood. I developed evaluation methods and authored reports.

Role: Implementation Consultant

Greg's Groceries Initiative

Funder: Palmetto Beverage (PI: K. Alia Ray)

This implementation project enabled police to act as community service workers and build trust by having them distribute food and support resources to underserved individuals in two rural South Carolina counties. I developed implementation and evaluation plans.

Psychology Student Advisory Board: A Clinical-Community and School Psychology Collaborative

2018 - 2019

Role: Primary Investigator

Funder: Society for Community Research and Action (SCRA) (PIs: T. Kenworthy; A. Domlyn)

This implementation project developed a peer mentorship program within an existing coalition of students who advise an academic department regarding student concerns and appropriate student programming. I led the mentorship program and administered a seed grant for improving the program's culture.

Institute for Healthcare Improvement | Boston, MA

2016 - 2019

Role: Evaluation Team Member

Spreading Community Accelerators through Learning and Evaluation (SCALE) Initiative

Funder: Robert Wood Johnson Foundation (PI: S. Stout)

This implementation project developed quality improvement skills and equity-centeredness among 24 community health coalitions across the USA as part of IHI's 100 Million Healthier Lives initiative. I co-developed assessment materials (including a novel maturity matrix), collected data, conducted site visits, analyzed data, and co-authored evaluation reports.

United States Air Force | San Antonio, TX

2018

Role: Getting to Outcomes (GTO) Coach

Project Air Force

Funder: U.S. Department of Defense (PIs: M. Chinman; J. Acosta; P. Ebener)

This implementation project deployed a process framework (GTO) for selecting and implementing tailored sexual assault prevention programs for every US Air Force base in the world. I served as a GTO coach during a 3-day training event.

Satcher Health Leadership Institute, Morehouse School of Medicine | Atlanta, GA

2016 - 2017

Role: Evaluation Team Member

Integrated Care Leadership Program

Funder: Kaiser Permanente (PI: G. Wrenn)

This implementation program delivered a 12-month capacity building program to a national cohort of 11 organizations integrating behavioral health and primary care. I served as an evaluator supporting data collection, analysis, and report writing regarding changes in organizational readiness.

South Carolina Center for Fathers and Families | Columbia, SC

2016 - 2017

Role: Continuous Quality Improvement (CQI) Coach

Destination Fatherhood Project

Funder: Administration for Children and Families (PI: A. Andrews)

This quality improvement program trained 79 social service staff across 9 nonprofit centers in QI methodologies. I served as a coach offering weekly training and support to three centers.
